How To Use This Set

- 1 Print all pages on plain paper or cardstock — cardstock feels the most special.
- 2 Cut along each coupon's edge. A ruler and craft knife give the cleanest lines, but scissors work perfectly too.
- 3 Fill in the "For" and "From" lines by hand for a personal touch.
- 4 Tie the stack together with ribbon, tuck it in a card, or hide one coupon a week for a month of little surprises.
- 5 When a coupon is redeemed, keep it as a small memory — or let it be reused as many times as you like.
